Carmody's Energy & Infrastructure Group represents utilities and energy companies in connection with the full range of litigation challenges that confront them, including commercial litigation and regulatory and enforcement proceedings. Our team has tried numerous cases in state and federal court on behalf of electric and gas utilities and electric generators on such matters as:

- Antitrust Litigation
- Construction and Project Disputes
- Contract Disputes
- Environmental Litigation
- Insurance Coverage
- Intellectual Property
- Joint Venture Disputes
- Labor and Employment
- Mass tort and Products Liability Actions
- Operator Claims and Liabilities
